BOOK SYNOPSIS

WRITING FOR PSYCHOLOGY, Fourth Edition offers concise assistance for students writing their research analyses using APA style. By providing concrete examples of common errors, the authors show rather than merely tell students what to do and what to avoid. This manual will help students adhere to the basics of APA style; refine critical thinking skills, library search skills, revising skills, editing skills, and proofing skills; and avoid plagiarism. Checklists precede a summary at the end of every chapter, giving students the chance to make sure they have been thorough in their reports. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.
